

NURS1002

Basic
Life
Support

1010 -

Respiratory

Physiology

organs - trachea, bronchi, lungs -
lungs - trachea - bronchi

Respiratory

COPD

COPD - chronic obstructive pulmonary disease -
Smoking - 1st - Respiratory - O_2 levels -

O_2 therapy -

Digestive system - Stomach - esophagus

Stomach - intestines, pancreas, gall bladder -

small intestines - ileum, jejunum, duodenum -

colon - large intestine - sigmoid -

absorption of food - breaking down -

Saliva - enzymes - amylase - starch - carbohydrates

Carbohydrates start at mouth - amylase - enzyme -

next starts at stomach -

Integumentary - regulates temperature - protection of

organs, insulates - protection of water loss -

Unbroken - pressure - 1st - 2nd -

Skin - protection - first line of defense - Intact skin -

1036 Temperature - Esthetics -

metabolism H_2O - skin shedding - brain heating O_2
